INTRODUCTION

Dear Brothers and Sisters in Christ,

This catalogue comprises Bible Study Resources produced by The Chichester Christian Fellowship (CCF), including those by Roger Price.

“Let the Word of Christ dwell in you richly” (Col 3v16)

...sums up our aims in producing such material. We believe a true revelation of the Word of God will set people free and there is no better way to get such revelation than to find out what the Bible says about itself, about the Godhead, about ourselves and about life in general!

Firstly we present a comprehensive list of studies by Roger Price. This is followed by a selection of study material produced by past & present Elders of CCF and other ministers. These include a number produced for specific teaching courses and conferences.

The Books section includes those written by Roger Price and the those produced from his Basic Bible Studies.

Also included are the booklets written by Peter Michell and some of the valuable Chronology books of the nineteenth & early twentieth centuries.

Over the thirty or so years of our existence there are far too many items for us to include a complete and detailed list. If you want more information about a specific tape or book or if there is a particular study that is not mentioned or a subject not covered then please contact us to see if it is still available

Roger Price was called home by the Lord in January 1987 after a 9 month battle against cancer. However, in his short life, Roger achieved more than most of us will in a full lifetime and was an extremely popular speaker and minister at churches, fellowships and conferences around the country (and in Western Europe).

He was the Head of Geography at a school in Chichester before becoming full-time with his dynamic Bible-teaching ministry in 1975. He was a founder member of the Chichester Christian Fellowship (CCF), formed in 1970.

The Bible Studies

During his time as an elder of the Fellowship, Roger wrote four books and recorded over 280 Bible Studies. These are extremely straightforward and easy to follow and begin by explaining some fundamental principles. These are then used as building blocks in order to achieve a comprehensive, basic understanding of the Bible - which is a good platform for further personal study.

The revelations Roger received from the Lord and his clear understanding of the basic Biblical principles and doctrines were much admired and loved. He spent hundreds of hours in deep Bible study as well as in research into the languages, history, geography and culture of the nations of biblical times. Many people testify to having the Bible come alive to them in their own private study after listening to some of the tapes

Series 1: SALVATION

What is the barrier? Why do I need to be born again? How can I be saved? Why did Jesus have to die? Can I commit the unforgivable sin? Can I lose my salvation?

How do I live in fellowship with God? This essential series answers these questions, giving a foundation for the entire BBS Course.

Series 2: JUDGEMENTS

Today people choose to ignore the fact that God will judge the human race.

Beginning with the lovely principle of Grace before Judgement, Roger used this course to outline and reinforce the coming Judgement of God.

The series ends with a call to evangelism - do we really understand what lies ahead for our unbelieving friends and neighbours?

PROPHECY

A quarter of the Bible is prophetic in nature and so it is crucial to know exactly the role that prophecy plays. Roger first showed in detail that much prophecy has already been fulfilled to the letter before going on to tackle unfulfilled prophecy. This then becomes comparatively straightforward and shows that God is in control of history. Please do not attempt Series 4 unless you have heard Series 3, or at least BBS 32. (STS 7-10 give a detailed analysis of the very important issues involved.)

Series 5: THE CHARACTER OF GOD

It is not fashionable to be in awe of God today. However we, as Christians, need to understand how just awesome He is as well as knowing that He loves and cares for us. Throughout this series Roger also showed how the Bible reveals the Trinity in every aspect of God's character.

ROGER PRICE

BBS Books

These are excellent reference guides to the Basic Bible Study tapes.

Two books are available covering the first 28 Bible Studies.

Salvation

Fourteen chapters, three appendices and nearly 240 pages of fundamental groundwork for the new and established believer. Refers to BBS 1 - 14.

See precis before Salvation series, page 2

Grace and Judgment

Fifteen chapters, four appendices and over 260 pages illustrating how God dealt with His people Israel graciously before delivering righteous judgement. Refers to BBS 15 - 28.

See precis before Judgements series, page 2

In The Beginning

The Biblical account of Creation and the Flood still poses a challenge to the enquiring mind. There is much scientific evidence available today which supports the Biblical record and reveals major flaws in the Theory of Evolution. This theory is no longer universally accepted by scientists, yet it is taught in our schools without question!

Evolutionary teaching has permeated much of our thinking and Christians need to have their minds renewed and to be well informed. In this book Roger has covered the main areas of dispute in the Biblical Record vs Evolution debate.

*** Written between 1982 & 1986, the following three previously out-of-print books have been reproduced by a sophisticated photocopying technique. Although not up to a full "Printers Standard" in terms of binding etc., the text has been reproduced very clearly.*

Possessing the Land **

Today many Christians believe in a life of faith and grace but often fail to see the essential part they must play. Roger asserts that, contrary to popular belief God will often ask some sort of response from us before His full blessings can flow.

Victory in Jesus **

Do you experience defeat in your Christian Life? This book sets out to describe the wonderful victory we have in Jesus, in what He achieved on the Cross, and seeks to help believers stand effectively in that victory.

God's Wonderful family **

God's intention for His children is that they should all be part of His family and grow up as mature sons. In this book the author considers how God has made us in the likeness of his family, and examines the essence of biblical Sonship and what it means to be a member of God's royal family.

CHRONOLOGY

Miracle of Time by Frank L Paine

Man needs to know that God has a plan. This book explains much of the perfect and exact timing of this plan, and will therefore help those wanting to understand the extraordinary events of this century in the light of Bible prophecy.

The Restored Vision by A E Ware

This book gives insight and understanding into the time measurements in the life of Jesus -birth, death and resurrection and every other major event in His life. The book sets down some amazing discoveries that will cause the reader to marvel at the mathematical perfection of the time measurements contained in the Bible and particularly in the earthly walk of Jesus Our Messiah. It shows how He perfectly fulfilled the Law and gives full meaning to the God-appointed Feasts of Israel and to the bearing these have on the 'church age'.

The Fourth Paper.

This is part of A E Ware's first major work "The World in Liquidation".

Those of you who have been blessed by the depth of information on the subject of chronology which is contained within his second book "The Restored Vision", will find in this book, subtitled "A Summary of Time" a comprehensive review of the calculations involved.

The Seventy Weeks of Daniel by Sir Edward Denny (*book & 2 charts*)

This book (whose full title is **A Companion to Two Prophetical Charts, The first of which Illustrates The Seventy Weeks of Daniel**) is by one of the foremost Biblical Chronologists of the 1800's. These publications are a superb resource for those of you with a deep interest in Biblical Chronology. Much of the modern developments in the subject are based on the work of scholars such as Sir Edward.

Rome, Babylon the Great & Europe by Bob Mitchell

This book provides further evidence that you are living in the Last Days.

Revealed within this book:

- The visions of King Nebuchadnezzar in Daniel 2 & John in Revelation plus their connection with the EU & the Roman Catholic Church.
- The link between the religions of ancient Babylon & Rome.
- The EU & the coming World Government.
- Evidence concerning the Vatican during World War 2.
- The Vatican plan for One World Religion.
- The Vatican involvement in the politics of the New World Order.
- Marian visions & the coming Age of Mary.
- Rome's hatred & persecution of true Christians.
- The destination of the Ecumenical Movement.
- The beliefs & actions of many of today's top charismatic leaders.

Bible Chronology - CD Rom Designed by Martin Thompson

This unique computer program accounts for every second of time in the Bible. It enables you to understand the amazing principles of Bible Chronology discovered in the last 200 years by Sir Edward Denny, Gratton Guinness, Arthur Ware, Frank Paine and others, and shows the miraculous way in which God has planned and ordered time. The program explains how Bible dates and festivals are established, and allows dates and time periods to be added or subtracted in any of its calendars or chronologies.

(System Requirements: At least Windows 95/98/NT *not* 3.1, CD-Rom drive)

Please enquire for further details before ordering.

Miscellaneous Papers by Frank L Paine

The author of "**Miracle of Time**" also wrote several other instructive papers. These are being prepared for publication by a member of his family and will be issued as they are completed. The first "**Leaven**", a four page pamphlet describing the application of the term in Jesus' day and our own, is now available.

Options for obtaining BBS tapes

Roger Price felt that the teaching in the Basic Bible Study tapes should be freely available. They are of course, as with the other tapes in this Catalogue, obtainable for purchase at the prices shown in the current Price List.

For those unable to afford to buy these tapes they are also obtainable, 4 at a time, from a lending library. When you have listened to them and taken notes etc., return them with a request for 4 more.

Please include any contribution you can afford, to cover postage. By this means we can continue to make the BBS Tapes available to those who are genuinely unable to purchase them.

Please make it clear that you want to borrow the tapes, rather than purchase.

When returning tapes don't forget to include you name and address even if you are not requesting any more .

For prices see separate price list.

NB.

- Where two or more numbers are given e.g.. STS 1-2, STS 41-45 the subject is recorded on two (or more) tapes or CDs.
- Prices are dependant on total quantity ordered at a time and *not* on which series they are from. E.g. An order for BBS 15 -17, BBS 60 - 62 and STS 7 - 10 is 10 tapes so the price will be that for the range 5 - 24.
